T-01051B-09-0527

Dear Sir or Madam:

This filing is being made on behalf of Qwest Corporation (QC), Entity Code T-01051B.

Enclosed for filing with the Commission is an original plus thirteen (13) copies of revisions to Qwest's Competitive Exchange and Network Services Price Cap Tariff No. 2.

With these revisions, Qwest will decrease rates for customers ordering certain bulk-rated, Rate Stabilized ISDN Primary Rate Service (PRS) effective December 21, 2009.

In addition, Qwest is modifying existing tariff language to clarify that the number of voice and data trunks available with PRS is 23 rather than 24.

Finally, effective with this filing, Qwest will be expanding the number of central offices in Arizona where special rate stabilized ISDN prices are available.

QC respectfully requests that these proposed changes become effective December 21, 2009.

If you have any questions regarding this filing, please contact me directly.

Sincerely,

Robin L. Terry
Regulatory Support Manager

14.3.1 PRIMARY RATE SERVICE

D. Rates and Charges (Cont'd)

14. In remote central offices where ISDN Primary Rate Service (PRS) is not deployed, but can be provided from the host switch, the service will be provided with DID telephone numbers from the remote (serving) central office. Customers requesting DID telephone numbers from the host switch will be billed interoffice mileage charges. The following rates apply for PRS in a remote switch provisioned with remote central office telephone numbers. The service will be offered on a BULK rated basis only. The rate includes a PRS T1 facility and common equipment, interoffice transport, a 23B+D, 24B, or 23B+D Back-up Service Configuration and 23 Voice and Data trunks provisioned as In-only with DID, Out-only or Two-way with DID or a UAS Network Connection.
